Revit Based Productivity Tools

- ✓ Automated Spool generation
- ✓ Auto Sheet Creation w/ dimensions and tags
- ✓ Smart Dimensions
- ✓ Hanger Tools
- ✓ Layout Points
- ✓ Fabrication Schedules

Fabrication & Productivity Tracking

- ✓ Mobile Application
- ✓ Real Time Fabrication Tracking
- ✓ Automated Time Sheets
- ✓ Material Tracking & Shipping BOL
- ✓ Barcode Functionality
- ✓ Nesting/ Machine Control
- ✓ Reports and Power BI capable

Field Installation & Productivity Tracking

- ✓ Advanced Work Packages
- ✓ Material Receiving
- ✓ Track status and time of installations

MSUITE's SaaS platform revolutionizes how disparate design, fabrication, and jobsite construction teams collaborate to increase productivity and reduce construction costs.

Innovative firms are leveraging disruptive technologies to increase **efficiency, productivity,** and **safety** the industry has sought for decades.

MSUITE empowers our design team to efficiently collaborate with fabrication and construction teams at an unprecedented rate.

John Trammell, Director of VDC Technologies at **The Brandt Companies.**

MSUITE allows our staff to manage pre-fabrication operations and build efficiently.

Chris Canter, Director of VDC and Fabrication **Shapiro and Duncan.**
